16 Hours

About this plan of study...
- Courses in bold are offered only in that semester excluding NSCI 3440.
- Use professional school prerequisites for electives while paying attention to upper division hours needed (see note below).
- An Upper Division controlled elective is an approved elective that is a 3000 or 4000-level course.

Other Requirements:
* 40 upper-division hours required.
** A 2.50 Major GPA is required. This includes all courses in College/Departmental and Major Requirements.
A grade of “C” or better is required in all NSCI 3000- and 4000-level courses.
Transfer Admission Requirement: 2.50 GPA.
Additional State/OSU Requirements – At least: 60 hours at a four-year institution; 30 hours completed at OSU; 15 of the final 30 or 50% of the upper-division hours in the major field completed at OSU. Limit of: one-half of major course requirements as transfer work; one-fourth of hours earned by correspondence; 8 transfer correspondence hours. Students will be held responsible for degree requirements in effect at the time of matriculation and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation. Degrees that follow this plan must be completed by the end of Summer 2021.

Don’t forget...
This is a four-year plan. It is subject to modifications in curriculum’s offerings and scheduling.
Students will be held responsible for degree requirements in effect at the time of matriculation (date of first enrollment) and any changes that are made, so long as these changes do not result in semester credit hours being added or do not delay graduation.
This plan is provided as a courtesy. The OFFICIAL degree requirements sheet is used to determine eligibility for graduation.
