COLLEGE OF HUMAN SCIENCES

PREFACE

"The basic functions of a university are to advance, evaluate, preserve, and transmit knowledge and to foster creative capabilities. These functions are performed by a community of faculty, students, and administrators, who are free to exercise independent judgment in fulfilling their educational responsibilities. The government of a university should be designed to allow this community to select and carry out its responsibilities with maximum effectiveness and integrity." (Preamble to the Charter and By-Laws of the General Faculty of Oklahoma State University)

In keeping with the University philosophy of faculty governance, the purpose of faculty governance in the College of Human Sciences is to provide an opportunity for faculty to formulate guidelines by which equitable decisions are made. The faculty governance process should support the mission and goals of the College and provide for faculty deliberation and decision making on issues affecting the College of Human Sciences.

This document outlines the faculty governance structure for the College of Human Sciences. It includes: (1) procedures for voting on issues brought before the College and (2) the structure of the faculty advisory committee and (3) responsibilities of college committees.
