Member Responsibilities: As a group of 100 we will meet for seven Friday morning workshops. We will be sharing readings and conversation related to sustainable communities, ecovillages, green building, renewable energy, entrepreneurship, sustainable lifestyles, organic food production, water issues, and sustainability curriculum.

Our workshops will begin at 9:30 am in Taylor’s Dining Room in the College of Human Sciences. As stakeholders we will work with students from the School of Architecture and Landscape Architecture Department to create scale models and design schematics of a “Living-Learning Community based on Sustainability” for OSU Housing and Residential Life.

Friday, September 14 Sustainability and Design Thinking, Truly Applied
Panel of industry executives, practitioners, and academicians
Kirsi Niinimäki of Aalto University, Finland • Chuck Durrett, AIA
Rick Darnaby, Global Business Leader

Friday, October 26 Why Academia Needs Ecovillages: Lessons from Sustainable Communities
Dr. Daniel Greenberg, Ecovillage Designer – Massachusetts

Friday, November 30 Participatory Democracy & Curriculum Infusion in Higher Education
Dr. Nancy Gift, Compton Chair of Sustainability Berea College, Kentucky

Friday, January 25 The Re-Membering: Regenerative Development
Bill Reed, AIA – Integrative Design Group, Boston/Santa Fe

Friday, February 8 Building Community & Aesthetics for Sustainability
Tom Kopf, RLA – DTJ Design, Boulder

Friday, March 1 The End of the World as We Know It: Why Tomorrow will be Integral, Holistic and Resilient
Tony Layne, AIA – Perkins+Will

Friday, April 5 Sustainable Solutions: Design for 21st Century and Beyond
Fiona Cousins, PE – Arup, New York

With a reserved seat at the design table you are asked to faithfully attend the gatherings as well as promote the concept on campus in order to capture and contribute the OSU community input to the design. Project Coordinator: Jane Talkington, Project Director, Institute for Creativity and Innovation; Oklahoma State University, Stillwater, OK
